Position Control
May 6, 2019

Position Control

- **Please note that the Position Controls are a work in progress project. Since we have not worked with the Principals since the roster verification meetings, we cannot solidify these possible changes without input from the leader. For instance, if they have an extra special education teacher, it could be due to high caseloads or a high need case load. These work in progress documents are included in the budget since they are clear examples of our budgeting attempt to realign when resources are scarce. These will be updated and presented again during a budget update. Since we would realign the resources, these changes would not have a budgetary impact to the overall budget. This could change if drastic cuts or additions were needed to balance the budget. We would then use the Position Controls to identify the positions under review.**

- **Please note that District Special Education staff are not listed on the individual roster since they will be on the rosters for the Special Education Department.**

- **Please also note that since this project is capturing positions, it is not noted whether someone is a LTS or permanent employee.**

Is this shared with another school?
No but we are inundated with Non-enrolled Pre-K testing
2 teachers are needed to do 5 grade levels/multiple content areas and inclusion
Do you want numbers??

Notes:

1) Added CSA paras due to adding a 5th grade level to the program that need para support in mainstream classes.
2) Need to review the model for 5th grade per Principal
3) The extra Allied Art and Special Ed teachers are offset by the missing 2 Loopers
