CITY OF LOWELL, MASSACHUSETTS

BOARD OF HEALTH

February 5, 2020

A meeting of the Lowell Board of Health was held on Wednesday, February 5, 2020 in the Mayor's Reception Room, City Hall, 375 Merrimack St., Lowell, MA 01852. Chairman John Donovan called the meeting to order at 6:00 P.M.

Present:
John Donovan, Board Member
William Galvin, Board Member
Lisa Golden, Board Member
Kathleen Cullen-Lutter, Board Member
Jo-Ann Keegan, Interim Director of Health & Human Services
Shawn Machado, Sr. Sanitary Code Inspector

DRAFT

2/5/2020 - Minutes

1. NEW BUSINESS

Chairman John Donovan called the meeting to order at 6:00 PM.

1.I. For Acceptance: Minutes Of The January 8, 2020 Meeting Of The Board Of Health.

Motion: To accept the minuets of the January 8, 2020 Meeting of the Board of Health made by William Galvin, seconded by Lisa Golden. All in favor.

1.II. For Review: Tobacco Control Monthly Report Submitted By Cesar Pungirum, Program Director.

The Board accepted and placed report on file.

1.III. Monthly Development Services Report: Submitted By Senior Sanitary Code Inspector Shawn Machado.

Senior Sanitary Code Inspector Shawn Machado reviewed the Development Services reports with the Board. The Board accepted and placed on file.

1.IV. For Review: Trinity EMS, Inc. Reports

Mr. Jon Kelley reviewed the reports with the Board. Mr. Kelley noted an error on page 5 of the quarterly report which was coded wrong. The information should have been listed as weather related due to the trucks being garaged for the winter weather. The Board had no further questions and placed reports on file.

2. OLD BUSINESS

2.I. **For Review:** Massachusetts DPH BEH Indoor Air Quality Reports For Lowell High School

DPW Commissioner Christine Clancy and Lowell School Department Facilities Manager Rick Underwood were present to speak to the Board. Commissioner Clancy spoke about the walk-through conducted at the 1922 and 1980's buildings which focused on rooms with high CO2 levels. A list of repairs was created as a result. A walk-through of the Freshman Academy will occur also.

The Air Quality Control follow-up reports and results were discussed. Board Member William Galvin noted there is an overlap between the original and follow-up reports which indicate a good portion of the violations are due to behavioral issues such as plants on windowsills, refrigerators on carpets, etc. Member Galvin asked if the violations were being addressed. Commissioner Clancy indicated they are and it is a dual effort with the School Department. Mr. Underwood spoke about the School Department efforts and that the teachers/staff are making the effort to make the corrections. Member Galvin noted that repairs had been done after the initial reports but the CO2 levels had not decreased much and asked if repairs were still being made. Mr. Underwood noted the plan is to improve airflow within the buildings. Some rooms will be focused on such as the Nurses' Office which currently has no ventilation.

2.II. Update: CDC Investigation of Increase of HIV Cases in Massachusetts Drug Users

The Board reviewed the information and placed on file.

3. DIRECTOR'S REPORT

3.I. Update: Divisional and Departmental Updates

Interim Health & Human Services Director informed the Board that the Service Zone Plan has been completed and signed. It will be going to the State for final review and approval.

HHS Director Keegan reviewed the departmental reports with the Board. The Board noted that the Syringe Collection report had been cleaned up as requested. Director Keegan informed the Board that the interviews for the HHS Director had begun and that she is on the interview committee.

4. Motion: To Adjourn.

Motion: To adjourn made at 6:40 PM by William Galvin, seconded by Lisa Golden. All in favor.

THE NEXT MEETING OF THE LOWELL BOARD OF HEALTH WILL BE HELD ON MARCH 4, 2020 AT 6:00 PM IN THE MAYOR'S RECEPTION ROOM.

DRAFT

Lowell Tobacco Control Monthly Report
February/2020

Prepared by: Cesar Pungirum, M.M., J.D.
Program Director

Lowell

Inspections

I've conducted 24 inspections so far this month, with greater focus on the implementation of the new state law. No major issues encountered. It appears that most retailers simply chose to stop selling non-flavored vaping products to avoid the risk of receiving the new very high fines if they ever commit a violation during the sale of these products.

Pricing Surveys

Twelve pricing surveys have been conducted this month, so far.

Compliance Checks

Compliance checks are expected to resume in March/20.

Implementation of the new state law: An Act Modernizing Tobacco Control

So far, no major issues with the implementation of the new law. We continue to receive guidance from the Massachusetts Tobacco Cessation and Prevention Program (MTCP). In fact, on March 25th I'll be attending a Municipal Tobacco Control Conference put together by MTCP and the state's Office of Local and Regional Health. This conference will focus on the implementation of the new tobacco law. Additionally, I'll attend MTCP quarterly statewide meeting on March 12th and a significant part of the meeting will be devoted the new law as well.

On February 12th, the Public Health Council amended 105 CMR 665, which was originally promulgated on December 11, 2019 to implement the new state law. The changes were made in response to the comments received during the public comment period that followed the original promulgation. *Attached you'll find a DPH letter describing the changes.*

Office of the Attorney General Office: New Press Release

AG Healey sues JUUL for having created the youth vaping epidemic, and reveals new facts about the company's campaign for targeting youth. *Press release is attached.*

February 19, 2020

Dear Public Health Colleagues:

The Department of Public Health promulgated 105 CMR 665: Minimum standards for retail sale of tobacco and electronic nicotine delivery systems on an emergency basis and the emergency regulation took effect on December 11, 2019. The Department made a number of changes to the emergency regulation based on comments received during the public comment period which are mostly technical and clarifying in nature. On Wednesday February 12, 2020 the Public Health Council (PHC) voted to finalize the promulgation of 105 CMR 665 and those changes will take effect March 6, 2020. In the interim, the emergency regulations will remain in effect.

For more information about implementation of the new tobacco law please visit www.mass.gov/newtobaccolaw.

The changes to the regulation are listed below:

Minimum Legal Sales Age: Updates to the regulation remove the definition of "minimum legal sales age". Due to recent changes in federal law setting the minimum sales age for tobacco products at 21 years old, this definition is no longer necessary. Throughout the entire regulation, this term has been replaced with the phrase "21 years of age".

Tobacco Product: As promulgated in December 2019, the phrase "regardless of nicotine content in the product" was inadvertently excluded from the definition of "tobacco product". Based on public comments and to ensure alignment with M.G.L. c. 270, § 28, this phrase has been added to the definition of "tobacco product".

Use of Flavored ENDS in Smoking Bars: Based on public comments, the provision indicating flavored ENDS are for on-site consumption in a smoking bar has been updated to specify these products are for "on-site consumption **only**".

Warning of Secondhand Smoking or Vaping Onsite: As originally promulgated, the regulation requires all smoking bars and retail tobacco stores post signs warning smoking and/or vaping may be present on-site; however, not all retail tobacco stores allow for on-site consumption. In response to public comment, the updated regulation requires only those retail tobacco stores that allow on-site consumption post signage warning of possible smoking, vaping, or tobacco product use onsite.

Signage Fines: As originally promulgated, the regulation says unlawful removal of a required sign is subject to a fine of "not more than $10.00"; however, M.G.L. c. 270, § 7(c) sets the fine at $10 (instead of up to). The regulation has been updated to require a $10 fine.

Suspension of Tobacco Sales: As originally promulgated, the regulation sets the maximum number of days a tobacco retailer found in violation of the regulation may be suspended from selling tobacco products (e.g., "up to 30 consecutive days"). Public comments from groups representing local jurisdictions noted this "ceiling" may conflict with existing local rules and regulations.
To address this, the regulation now clearly indicates local jurisdiction may enact more stringent suspension periods, consistent with anti-preemption language within M.G.L. c. 111, § 239.

Clarifying Anti-Preemption Language: As originally promulgated, the regulation does not specifically acknowledge the ability of a local authority to adopt its own rules and regulations, provided those rules or regulations do not conflict with DPH regulations or federal or state law. However, commenters requested anti-preemption language be added to the regulation.
To address this, DPH has included the anti-preemption language within M.G.L. c. 111, § 239 to reiterate state law for clarity in the regulation and to remove any ambiguity.

The Department is hosting two Municipal Tobacco Control Conferences for local boards of health to provide guidance on the new legislation and regulations. These conferences will take place on March 23, 2020 in Holyoke and on March 25, 2020 in Westborough. Both meetings are from 9:00-3:00. Registration is required and will be sent out via the OLRH newsletter.

For more information about the above events, please feel free to contact Patti Henley, Director of the Massachusetts Tobacco Cessation and Prevention program, patricia.henley@state.ma.us or Ron O'Connor, Director of the Office of Local and Regional Health, at ron.oconnor@state.ma.us.

PRESS RELEASE

AG Healey Sues JUUL for Creating Youth Vaping Epidemic, Reveals New Facts About Campaign Targeting Young People

AG's Lawsuit Demands JUUL Pay for Cost of Public Health Crisis in Massachusetts

FOR IMMEDIATE RELEASE:

Emalie.Gainey@mass.gov (mailto:Emalie.Gainey@mass.gov)

BOSTON — Attorney General Maura Healey announced today that her office has sued JUUL Labs Inc. for creating a youth vaping epidemic by intentionally marketing and selling its e-cigarettes to young people. Based on multiple depositions and hundreds of thousands of pages of company documents, AG Healey's lawsuit reveals new facts that have not previously been made public about JUUL's youth-oriented advertising campaign in 2015.

In a **lawsuit** (/lists/attorney-generals-office-lawsuit-against-juul) filed in Suffolk Superior Court today against JUUL Labs Inc. and its predecessor entity Pax Labs Inc. (together, "JUUL"), the AG's Office alleges that the company illegally advertised and sold nicotine products to underage youth and created an epidemic of nicotine addiction among young people. The lawsuit demands that JUUL pay for the costs associated with combating this public health crisis affecting young people across Massachusetts.

"JUUL is responsible for the millions of young people nationwide who are addicted to e-cigarettes, reversing decades of progress in combatting underage tobacco and nicotine use," said AG Healey. "Our lawsuit sheds new light on the company's intent to target young people, and we are going to make them pay for the public health crisis they caused in Massachusetts."

AG Healey was the **first attorney general to announce** (/news/ag-healey-announces-investigation-into-juul-other-online-e-cigarette-retailers-over-marketing) an investigation into JUUL in July 2018. Today's lawsuit provides the first real window into JUUL's original marketing plan, and shows that JUUL intentionally chose models and images that appealed to young people, that the company advertised its products on websites geared toward kids, and that JUUL shipped e-cigarettes to underage youth who ordered them directly from JUUL online.

JUUL's Marketing and Advertising Campaign

The AG's investigation focused on the launch of JUUL's e-cigarette in 2015, when the company created an advertising and marketing campaign that explicitly identified its target audience as young people who were fashionable, urban, and social. According to the AG's lawsuit, JUUL rejected an initial marketing proposal to present itself as a technology company with a target audience of adult smokers already addicted to nicotine

and instead chose the "Vaporized" advertising campaign developed by JUUL's artistic director and inspired by sexually provocative images of young models and celebrities. According to the AG's lawsuit, even though JUUL employees and its board of directors were concerned that models photographed for the campaign appeared too young, they used them anyway.

JUUL placed their advertisements on millions of websites, in mobile applications, in physical retail stores, in print, and on social media platforms used by young people, like Instagram, Facebook and YouTube. The company also used the images and videos of these models in an electronic billboard installation in Times Square in New York City. The company supplemented these images with pictures of the young people it recruited to attend its launch party in 2015.

Advertising on Websites used by Children and Teens

The AG's lawsuit also makes new allegations that JUUL purchased advertising space for its Vaporized Campaign images on websites whose primary audiences are underage consumers, some even as young as children in elementary school, such as Nickelodeon, Nick Jr., The Cartoon Network, and Seventeen Magazine. JUUL also purchased advertisements on a range of other websites designed for kids, including websites to help middle school and high school students develop their mathematics and social studies skills, including coolmath-games.com and socialstudiesforkids.com.

Recruiting Young Celebrities to Build Brand Awareness

JUUL attempted to recruit celebrities and social media influencers with large numbers of underage followers, such as celebrities like Miley Cyrus, Cara Delevingne, Kristen Stewart, and social media influencers Luka Sabbat and Tavi Gevinson. JUUL gave out hundreds of free e-cigarettes to celebrities and social media influencers to promote awareness of the JUUL brand and e-cigarette products. JUUL targeted influencers who were fashion bloggers, stylists, celebrities, and affiliated with certain television programs, networks, or movies filmed or produced in New York City and Los Angeles. JUUL also inspired competitors like Eonsmoke, **who AG Healey also sued** (/news/ag-healey-sues-national-e-cigarette-retailer-eonsmoke-for-marketing-and-selling-nicotine), to launch their own copycat JUUL products, using hashtags and catchphrases to sell e-

cigarettes in an array of sweet flavors with ever-increasing concentrations of nicotine. JUUL sold its own flavors that were particularly appealing to young people such as mango, crème brulee, coco mint and cool cucumber, and JUUL's advertisements often made no mention of nicotine.

Knowingly Advertising to Underage People by Email

From the outset of the Vaporized Campaign, JUUL collected the email addresses of visitors to its website for its email marketing list, through which it promoted JUUL products and offered specials and discounts. The AG's investigation revealed that JUUL sent these emails to addresses associated with consumers who had failed or didn't complete JUUL's age verification process. According to an analysis commissioned by JUUL in the summer of 2017, approximately 40,000 email addresses on its email marketing list were associated with records of individuals who had failed JUUL's own age verification process and 83 percent of the approximately 420,000 email addresses on JUUL's marketing list couldn't be matched with the record of an individual at least 18 years old. JUUL nevertheless continued to send marketing emails to this list for a full year, until August 2018.

Shipping E-cigarettes to Underage Consumers

The AG's investigation of JUUL also revealed that the company illegally sold e-cigarettes to underage consumers through its website without proper age verification as **required by regulations** (/ago/news-and-updates/press-releases/2015/2015-09-14-final-e-cigarette-regulations.html) issued by AG Healey in 2015. JUUL sold e-cigarettes to consumers who supplied dates of birth that established they were younger than the minimum legal sales age and made more than 10,000 shipments of e-cigarettes to recipients and addresses in Massachusetts that JUUL made no attempt to age verify.

The company shipped e-cigarettes to underage high school students and recent graduates across the state including students from Brookline High School, Hanover High School, Longmeadow High School, Weston High School, and the Bridgewater-Raynham School District High School. JUUL allowed more than 1,200 accounts to be established for Massachusetts consumers using school email addresses, including email addresses associated with high schools in Beverly, Malden, and Braintree and shipped its products to

recipients with obviously fabricated names, like "PodGod." The company made thousands of shipments of e-cigarettes to Massachusetts without requiring an adult signature at receipt and JUUL's customer service representatives even provided consumers with advice on how to evade minimum legal sales restriction requirements. There were no limits on how many products someone could buy, and they could be shipped anywhere and to anyone.

Working with Risky Retailers

The lawsuit also alleges that JUUL got hundreds of Massachusetts stores to sell its products, including approximately 850 stores it knew the FDA had cited for attempting to sell tobacco products to underage teens. The company even ran its own "secret shopper inspection" of Massachusetts retailers, caught them attempting to sell products to teens, and continued to work with those stores.

E-cigarette use is now an epidemic among adolescents. In Massachusetts, more than 50 percent of high school students have tried e-cigarettes, and more than 30 percent have used e-cigarettes in the past 30 days. JUUL, meanwhile, made approximately $3.3 billion in U.S. retail sales between September 2018 and August 2019 and controls approximately three quarters of the e-cigarette market. Adolescents are substantially more susceptible to nicotine addiction than adults, and nicotine poses particular risks to their cognitive development. JUUL nevertheless engaged in an advertising campaign that appealed to these consumers, even though JUUL's e-cigarettes are both legally prohibited and particularly unsafe for adolescents.

According to the lawsuit, JUUL's misconduct has created a public health crisis and an epidemic of nicotine addiction among underage consumers, which the AG's Office alleges constitutes a public nuisance for which JUUL is liable to the state. The AG's Office seeks restitution, damages, and penalties for JUUL's illegal conduct and an order requiring JUUL to abate the harm it has caused in Massachusetts.

This matter is being handled by Assistant Attorneys General Samantha Shusterman and Elizabeth Cho and Division Chief Max Weinstein, all of the AG's Consumer Protection Division, Director Angela Brooks of the AG's Child and Youth Protection Unit, Paralegals

David Birch and Matthew Johnson of the AG's Consumer Protection Division, and Investigator Ciara Tran, of the AG's Civil Investigations Division.

###

STATEMENTS OF SUPPORT

Matthew L. Myers, President of the Campaign for Tobacco-Free Kids

"The Campaign for Tobacco-Free Kids applauds Attorney General Healey for her leadership in holding JUUL accountable for addicting a generation of our kids. JUUL fueled the youth e-cigarette epidemic with its sweet flavors, kid-friendly design and marketing, and massive doses of nicotine. By launching the first state investigation of JUUL and now filing this lawsuit, Attorney General Healey is delivering an unmistakable message to e-cigarette makers that they will not get away with targeting and addicting our kids."

Dr. Jonathan Winickoff, Director of Pediatric Research at the Tobacco Research and Treatment Center at MGH, and Harvard Medical School Professor

"I've seen firsthand the impact that e-cigarettes have on teenagers, including anxiety, depression, mood disorders, and asthma in my patients. Studies show these products impact brain development, contain cancer causing chemicals, and can alter the brain to potentiate addiction to combusted tobacco and other drugs. This action will help pediatricians treat the tens of thousands of adolescents in Massachusetts who are now addicted to JUUL and similar products. We are grateful to Attorney General Maura Healey for her work in leading the country toward a tobacco-free future for children."

Dr. Maryanne C. Bombaugh, President of the Massachusetts Medical Society

"The physicians of the Massachusetts Medical Society support the action taken today by Attorney General Healey. As physicians, we find the dangerous and dishonest tactics, ripped from the Big Tobacco playbook, that were used to introduce these deadly and addictive products to children have not only injured the health of our children but will continue to injure the health of our patients and communities for years to come. Companies that deploy deceptive marketing approaches have sabotaged the previous

successful progress made toward making this generation of children nicotine-free and have instead fueled a public health crisis of nicotine addiction."

Deborah Davis, President of the Massachusetts Association of School Committees and Chair of the Northeast Metro Tech School Committee

"It is critical that Massachusetts takes action to protect the health and safety of our students. Having the Attorney General at the helm of this litigation is the most effective way to ensure that our students will benefit in every possible way. We are grateful to AG Healey for filing this lawsuit on behalf of our students and schools, as well as the health providers, social services agencies, and others in the public health community working to address this crisis."

Laurie H. Glimcher, President and CEO of the Dana-Farber Cancer Institute, and the Richard and Susan Smith Professor of Medicine at Harvard Medical School

"We know that there are health risks from vaping from the harmful and potentially harmful substances found in many vaping liquids. We also know that vaping leads teens and young adults to smoking traditional cigarettes and one-third of them will eventually die from smoking-related diseases. We must do all we can to protect another generation from a life of addiction, disease and early death. Because the fact remains that the single most effective thing we can do to prevent cancer and save lives is to reduce smoking and tobacco use. That is why Dana-Farber Cancer Institute applauds Attorney General Healey's efforts to hold electronic cigarette manufacturers responsible for targeting children and young adults in their predatory marketing."

Massachusetts Senator John F. Keenan

"JUUL has taken a page straight from Big Tobacco's playbook by directly targeting and actively marketing to kids through deceptive practices, all while claiming to be a product for adult consumers. I am proud to stand with Attorney General Healey as she fights to protect young people in the Commonwealth who have been tricked into thinking that JUUL products are cool and harmless, and who now are struggling with nicotine addiction."

Massachusetts Representative Danielle Gregoire

"I am proud to stand with our Attorney General today to continue the work we did this fall

in banning flavored tobacco. Flavored products have been key in Big Tobacco's resurgence and ability to hook our children. The Attorney General's actions today against JUUL show that our state will no longer permit such shameless manipulation of our children."

Dr. Kevin Churchwell President and COO of Boston Children's Hospital

"Boston Children's Hospital stands firmly with Attorney General Healey in this important effort to protect young people from the very harmful impacts of electronic cigarettes. At Children's, we see firsthand the impact these dangerous products have on children's health and well-being. We are grateful to the Attorney General for her strong and effective leadership in protecting the children of Massachusetts."

Maryalice Foisy, President, Massachusetts PTA

"As an organization, the Massachusetts Parent Teacher Association (PTA) has been fighting for the health, safety, well-being, and education of all children for over 100 years. The issue of vaping has had and continues to have a serious impact on our youth and is at the top of our advocacy agenda. As such, Massachusetts PTA fully supports the Attorney General's efforts."

Lauren Smith, MD, Chair of Tobacco Free Mass

"Tobacco Free Mass applauds Attorney General Healey's action to hold JUUL accountable for targeting young people with its marketing practices. JUUL's dishonest marketing practices undid years of progress in preventing youth addiction to tobacco. Attorney General Healey's actions are an important contribution to Massachusetts' efforts to protect young people from a lifetime of addiction to all types of tobacco products."

Jenny M. Gormley, President, Massachusetts School Nurses Organization

"The Massachusetts School Nurse Organization (MSNO) supports efforts by Massachusetts Attorney General Maura Healey to protect youth from business practices that harm health and safety. MA School Nurses have seen firsthand the devastating harm from vaping nicotine addiction among students seeing the nurses in health offices for rapid heart rate, chest pain, persistent coughing, nausea, vomiting, and cramping. School Nurses also lead school teams of administrators and school counselors who seek to address mental/behavioral consequences from vaping, including student anxiety, irritability, difficulty concentrating, and dismissal from school and school activities for

violating school district policy and laws related to nicotine use on school grounds. Including vaping language in the state mandated annual substance use interview screening, known as SBIRT, is helping school nurses identify students at risk for vaping nicotine addiction. School Nurses support students who are trying to quit by advocating for practices that can assist students with nicotine addiction and refer students to the few treatment programs that exist in the state. Some school nurses have participated in a training program for health care providers seeking to help youth with vaping cessation. The younger a student starts using nicotine, the more likely they will become addicted for life. With gratitude for the work of the Attorney General's Office to stop vaping use in youth under 21 years of age."

Marcia Testa, MPH, PhD, President, Massachusetts Association of Health Boards

"The Massachusetts Association of Health Boards (MAHB) strongly supports Attorney General Healey's actions against JUUL. This company, virtually single handedly, reversed nearly two decades of progress in reducing youth addition to nicotine. Additionally, and even more horrifying, JUUL representatives followed the tobacco industry's playbook by visiting schools, offering them money to help 'prevent' the use of JUUL in schools, while – in the same visits – telling 9th graders that its product was 'totally safe.' As one teenager said in his testimony before Congress in July, his classmates were more likely to vape after the visit from JUUL representatives because they said it was safe. As the coordinating organization for the Commonwealth's 351 local boards of health, MAHB applauds and thanks Attorney General Healey for her proactive and decisive action to protect those who are most vulnerable to the greed of corporations who place their profits above the safety of people."

Thomas Scott, Executive Director, Massachusetts Association of Schools Superintendents

"Schools and superintendents have been on the front lines of the vaping crisis in Massachusetts. We have lost instructional time and reallocated money and other resources trying to help students and address the growing problem of youth use of e-cigarettes. We are grateful that Attorney General Healey has taken legal action on behalf of our children, and we will support her efforts in whatever ways we can."

Meredith Berkman and Dorian Fuhrman, Parents Against Vaping e-cigarettes; Kristin Beauparlant, PAVe (Parents Against Vaping e-cigarettes) Massachusetts

We are deeply grateful to Attorney General Maura Healey for taking decisive action today against JUUL with a lawsuit that outlines in disturbing detail the many predatory ways in which this Big Tobacco company targeted teens, causing the youth vaping epidemic that has impacted so many families in Massachusetts and across the country. Thank you to AG Healey and her dedicated staff for taking the time to methodically investigate JUUL and hold it accountable for the damage it has done to our kids, an entire generation that would not have been initiated into tobacco use but for this company's deliberate efforts—copied by dozens of JUUL copycats flooding the e-cigarette market—to create a brand-new customer base of nicotine addicts.

RE: NOMINATION OF INSPECTOR OF ANIMALS

Nominating Authority:

Enclosed is the nomination form for the Inspector of Animals for your city or town. **This form is due back to the Division of Animal Health by April 1, 2020**. The appointment will run from May 1, 2020 until April 30, 2021. If more than one inspector was appointed for your city or town, there is a separate form provided for each. If you are nominating the same inspector(s) this year, **be sure that all of the contact information is complete and still correct**. Any corrections should be made in the space provided on the right. If you will be nominating a new inspector, that person's information should be entered in the space provided on the right. Submit a separate form for each inspector nominated. Also, be sure that all of your (nominating authority) information is complete and correct. Any changes to your information should be made in the space provided to the right.

Once all of the contact information is confirmed to be correct, all that is needed is to **have the nominee sign the form**, accepting the nomination and swearing to faithfully perform the duties of that office. **The nominee's signature must be notarized**. In many cases the city or town clerk is a notary.

After the nominee's signature has been notarized, simply **return the form to the Division of Animal Health at the address listed at the top of the form**. The Division of Animal Health will send back confirmation of the inspector's appointment. **Please note that regardless of when the most recent appointment was made, it is only valid through April 30, 2020**. This nomination will cover the year starting May 1, 2020 and run until April 30, 2021.

If you have any questions, please call Elsie Colon at (617) 626-1810

Thank you,

Michael Cahill, Director
Division of Animal Health

Boston, MA 02114-2151

Nomination of Inspector of Animals

In accordance with the Massachusetts General Laws Chapter 129, sections 15 and 16, nominating authorities of each city and town are required to nominate one or more inspectors of animals by April 1, 2020. Please complete or make necessary changes and return this form to the above address. The Director will review your nomination and, assuming appointment is confirmed, will return to you a Certificate of Appointment. Please submit one form for each person nominated. Any city or town not in compliance is subject to a penalty of $500.

City or Town of Lowell 3/6/2020

To the Director, Division of Animal Health, Department of Agricultural Resources

In accordance with the provisions of section 15 of Chapter 129, General Laws, as amended, the following nomination of inspector of animals for the year ending April 30, 2021 is sent for your approval:

Inspector of Animals

February 3, 2020

Pursuant to the State Reclamation & Mosquito Control Board's (SRMCB) budget notification and compliance certification policy, as revised, please find enclosed Form SRB-1.

These documents show our preliminary proposed budget amount, increase from FY20 and estimated balance forward on page 1. Pages 3 and 4 show each member community's percentage of total budget, share amounts for CMMCP and SRMCB, and total assessment estimate for FY21.

There are no forms to be mailed back to our office. Please direct any questions, comments or concerns to me at (508) 393-8766 or deschamps@cmmcp.org before April 15, 2020.

For more information, please find budget information posted on our website at this link: https://www.cmmcp.org/budget-information. Thank you.

Sincerely,

Timothy D. Deschamps
Executive Director

Project Name: Central Mass. Mosquito Control Project

NOTICE OF PRELIMINARY PROPOSED BUDGET FOR FY2021

Notice is hereby given that the Central Mass. Mosquito Control Project's (the "Project") preliminary proposed budget for **FY2021** is available online for viewing at (https://www.cmmcp.org/budgetinformation) and summarized below. Any questions, comments or concerns regarding this preliminary budget should be directed to: Mosquito Control Project deschamps@cmmcp.org *by April 15th.*

1. The total preliminary dollar amount that the Project is proposing for FY2021 is $ 2,642,190 . The chart found below highlights the preliminary budget request by the Project for the coming year with pertinent budget information that fully describes the "total trust fund account" budget amount available for the Project to expend in FY2021.

A. Project Name	B. Number of Employees	C. FY2021 Preliminary Proposed Budget Amount	D. FY2021 % Increase towards Operating Budget	E. FY2021 % Increase towards Capital Budget	F. FY2021 Total % Increase Over Certified FY2020 Budget (Add D + E)	G. FY2020 Estimated Balance Forward /Rollover Amount	H. FY2020 Actual Budget Revenues	I. FY2020 Total Est'd Funding Available in Trust Account (Add C + G)
Central Mass.	22	$2,642,190	2.5%	0%	2.5%	$100,000	$2,577,745	$2,677,745

2. The member municipalities within the Project together with each municipality's estimated proportionate share thereof expressed both as a percentage and as a dollar amount, are as set forth on Form SRB-1, Page 2. **As of the date of this notice, the Project is comprised of 42 municipalities as listed on Form SRB-1, Page 3.**

If the composition of the Project changes because one or more municipalities join or withdraw from the Project, the total preliminary budget will be adjusted pro rata.

8. A copy of this Notice, together with a copy of the preliminary budget proposed, has been delivered or mailed to the Chief Administrative Officer, Chief Executive Officer, to the Finance Committee of each member municipality having a finance committee, and to the State Reclamation and Mosquito Control Board.

Project Name: Central Mass. Mosquito Control Project

Keolis Commuter Services 2020 Yearly Operational Plan, prepared in accordance with the Massachusetts Rights-of-Way Management Regulations (333 CMR 11.00), can be found at:

Rcvd 2/24/20

FDCErailroadvegetation.com

➡ KEOLIS Commuter Services
- ➡ Environmental Monitor Notice
- ➡ 2020 Yearly Operational Plan
- ➡ "YOUR MUNICIPALITY"
  - ➡ Right-of-Way Maps

The Integrated Vegetation Management activities proposed in the 2020 Yearly Operational Plan (YOP) for the Commuter Rail includes both mechanical and chemical controls. The mechanical controls (brush and tree clearing, trimming, removal), stump and basal treatments, vegetation clearing from Right-of-Way track drainage ditches, post emergent (non-sensitive areas) and touch up of herbicide is scheduled throughout the year. The ROW pre-emergent chemical application is scheduled weather depending from May 1 through June 30, 2020.

The Right-of-Way (ROW) Maps for each city/town reflect the chemical application zones approved through the five-year Vegetation Management Plan permit issued for 2015-2020. The identification on the maps of private drinking water supply wells remains an ongoing process. Please notify Fair Dermody Consulting Engineers, Keolis and the Department of Agricultural Resources of any omissions and or new private drinking water supply wells.

Please review your mailing address and the ten-digit police department emergency telephone number listed in the Plan and notify us of any revisions. Hard copies of all documents are available upon request, please email Tim@FDCEngineers.com.

Board of Health Meeting – March 4, 2020

Community Health Division, Lowell Health Department

Community Health Coordinator (CHC)
Kate Elkins

Healthy Lowell Week

- In recognition of National Public Health Week, the Health Department (HD) will be once again coordinating "Healthy Lowell Week" taking place this year from April 6-12, 2020 in partnership with the Greater Lowell Health Alliance, Lowell General Hospital, Lowell Community Health Center, UMass Lowell, and other community partners.
    - *Event schedule can be found at https://bit.ly/healthylowellweek*
- Additional activities will take place during the week at the HD, such as staff participation in the Mass DPH Ounce of Prevention Conference and efforts to recognize and appreciate HD employees.

Healthy Living in Lowell

- Healthy Living in Lowell is off to a great start in the new year and episodes have been focused on the following:
    - January – Community Health Needs Assessment
    - February – Stroke and Heart Health
    - March – Women's Health
- The CHC will continue to coordinate episodes and film in advance of maternity leave.

Access to Equitable Physical Activity

- The City of Lowell was awarded a grant from the Blue Cross Blue Shield of Massachusetts Foundation to establish more equitable opportunities for physical activity in Lowell over a three-year period.
- The "Healthy Walking Trails" project is in planning stages and the CHC, Neighborhood Planner, and a representative from BCBS recently met with the Centralville Neighborhood Association to discuss routes and signage and get feedback from residents.
- Additionally, Fitness Improvements are underway at Sheehy Park and stationary equipment has been sourced and will soon be procured and installed.

Employee Health and Wellness

- The CHC is working with the city's health and wellness committee to implement plans for programming in 2020.

Vision 2020 Grant

- The Health Department was awarded funding from the Greater Lowell Health Alliance in October to implement a new vision program within the School Health Unit. This grant will assist with better screening equipment for our youngest children and an enhanced vision referral system. The CHC wrote the grant and is now assisting the School Health Unit with some of the grant objectives.
- A Welch Allyn SPOT vision screener has been procured and testing of students 3-5 years of age has begun. The Vision Screeners are excited to have this state of the art machine to use.

- Systems flow chart, updated letters to parents, updated physician result forms, and updated letters to eye doctors are now revised and being implemented within the School Nurse Unit.

Sun Safety Initiative

- The CHC will once again work with Impact Melanoma to provide sun safety programming and education for the 2020 summer season. In addition to the five water sites where sunscreen dispense kiosks were placed, we will add up to 8 new dispensers at athletic fields and recreation camps – all disposers are free and open to the public.

Additional Notes

- The CHC is planning a maternity leave for April – July and is actively working on planning for this process during this time.
- The CHC is working with the City Manager's office and health department leadership on planning for communications during the time of the move.

Board of Health Meeting – April, 2020

Community Health Division, Lowell Health Department

Community Health Coordinator (CHC)
Kate Elkins

COVID-19 Efforts

- The CHC has been working diligently in partnership with the Health Director and City Manager's office to produce internal and external messaging and communications regarding COVID-19. This includes:
    - Website update at lowellma.gov/coronavirus
    - Press releases
    - Staff updates and email
    - Community partner updates and emails
    - Emergency Operations Center caller talking points, forms, etc

Healthy Lowell Week

- Events and efforts have been cancelled for 2020 due to COVID-19.

Healthy Living in Lowell

- Healthy Living in Lowell filming has been postponed due to COVID-19, however several episodes were pre-filmed, including an episode on the dangers of vaping and a women's health episode.

Access to Equitable Physical Activity

- The City of Lowell was awarded a grant from the Blue Cross Blue Shield of Massachusetts Foundation to establish more equitable opportunities for physical activity in Lowell over a three-year period.
- The "Healthy Walking Trails" project is on standby due to COVID-19
- Stationary fitness equipment will be procured and installed in Sheehy Park, but project is on standby due to COVID-19.
-

Employee Health and Wellness

- The CHC is working with the city's health and wellness committee to implement plans for programming in 2020. Many activities are currently on standby.

Vision 2020 Grant

- No update for this program.

Sun Safety Initiative

- Events and efforts are on standby for 2020 due to COVID-19.

Additional Notes

- The CHC is planning a maternity leave for April – July and all preparations have been made for coverage during this time.

HEALTHY LOWELL WEEK

April 6-12, 2020

National Public Health Week www.nphw.org

AN INITIATIVE OF THE AMERICAN PUBLIC HEALTH ASSOCIATION

Join the Lowell Health Department and many of its community partners to celebrate *Healthy Lowell Week* in honor of National Public Health Week taking place across the country from April 6-12, 2020.

Here's how you can join-in:

- Attend one of the Healthy Lowell Week events
- Access health and wellness discounts and promotions across Lowell
- Use the hashtags #healthylowellweek and #nphw to show all the ways you make Lowell a healthy place to live, work, and play
- Share this with your friends and family and encourage everyone to participate

Use this code to get more details! Just open your smartphone's camera and scan.

Board of Health Report – February 5th, 2020

Substance Abuse and Prevention Division, Lowell Health Department

Substance Abuse Coordinator, Division Manager
Lainnie Emond, LMHC

Prescription Drug Monitoring Program (PDMP) Grant Initiatives:

- Continuing to work with the Co-Chairs of the Mayor's Opioid Epidemic Crisis Task Force to plan monthly meeting agendas, identify potential initiatives, contact presenters, and invite new agencies to participate.
    - *Recent and Upcoming Meetings: February 24th and March 30th from 5:30-6:30pm.*
- Continuing to lead Data Subcommittee of the Mayor's Opioid Task Force. Subcommittee finalized the fifth "Opioid Trends in Lowell, MA" report, which focuses on HIV and opioid-overdose risk factors in Lowell. The Data Subcommittee also created a "2019 Summary" report that highlights successes of our community partners.
- Continuing to co-lead Media Subcommittee meeting of the Mayor's Opioid Task Force. Subcommittee released a press release highlighting winter weather risk factors for opioid overdose, as well as wrote a short provider message for the LGH medical provider monthly email.
- Continuing to work the Lowell Police Department and UMass Lowell grant partners to document the progress of the grant, as the PDMP grant ends in September 2020.

Lowell CO-OP and Related Efforts:

- Lainnie continues to be involved in administrative planning for the Lowell CO-OP, including co-facilitating Lowell CO-OP Supervisors Meetings and working with team and grant partners to ensure effectiveness of the team.
- Lainnie and Maricia, the Lowell CO-OP Supervisor, held first and second round interviews for the Clinical Recovery Specialist position in January. A candidate recommendation has been made.

Additional Substance Abuse Coordinator Activities:

- Continuing to managing daily activities of the Substance Abuse and Prevention Division.
- Continuing to be the point person for www.DrugFreeGreaterLowell.org.
- Continuing to work with colleagues from Tufts University and Trinity EMS to work on a scientific research paper examining how EMS interacts with patients prior to experiencing a fatal overdose.
- Lainnie attended the Community Anti-Drug Coalitions of America (CADCA) Annual National Leadership Forum from February 3rd through February 7th as a member of the Tewksbury Substance Abuse Prevention Collaboration.
- Lainnie is scheduled to attend the 2019 Buruea of Justice Assistance's Comprehensive Opioid Abuse Program (COAP) National Forum Tuesday 3/10 – 3/12, as the Substance Abuse Coordinator position will be funded in part by the LPD's COAP grant once the PDMP grant concludes this fall.

Massachusetts Opioid Abuse Prevention Collaborative (MOAPC)

*** Lainnie Emond will oversee the MOAPC Grant through the end of the grant cycle, June 30th, 2019. ***

Strategy One (implement Life Skills Training across the cluster): *Life Skills Training is an evidenced based prevention curriculum supported by the Bureau of Substance Addiction Services.*

- No updates at this time.

Grant Strategy Two (coordination and promotion of education on harm reduction strategies):

- Several organizations within the MOAPC cluster offer Narcan training and Narcan kits.

Drug Free Greater Lowell Website

- www.DrugFreeGreaterLowell.org is live. The MOAPC grant funded informational business cards and other outreach materials to promote the website.

Unwanted Medication and Sharps Disposal

- The Lowell Health Department is hosting its first Unwanted Medication and Sharps Disposal day on March 10th from 2-6pm at 341 Pine Street, Lowell, MA.

Other

- Continued discussions with MOAPC Coalition and BSAS grant funder to hire a contractor to analyze data, wrap up the MOAPC grant, and assess the current status of the MOAPC coalition via something similar to a SWAT analysis. Coalition identified their first request for a contractor to focus on assessing the current status of the coalition, with their second request being data analysis.

Partnerships for Success (PFS)

*** Lainnie Emond will act as interim coordinator of the PFS grant until the position is filled. ***

Strategy One (social media and education dissemination to high school-aged youth re: sharing prescription medications):

PFS Social Media Campaign:
- Social media campaign has been placed on hold until a new PFS Coordinator is hired.

Strategy Two (social media and education dissemination to parents/guardians and high school-aged youth re: proper disposal and storage):

"Help Keep Our Kids Safe" Campaign
-Community Health Coordinator, Kate Elkins, has completed a two-sided handout giving tips on the proper storage of prescription medication as well as identifying medication disposal sites in Lowell. Kate worked with a contracted graphic designer to create the handout format, and worked with Lainnie to create the handout content. This handout will be distributed to the general public with a specific focus on parents/caregivers of local youth. This handout has been reviewed by the grant's assigned BSAS Grant Contract Manager and Technical Assistance Liaison; Lainnie will work to make the necessary changes before printing and distributing.

Monthly Meeting:
The next coalition meeting is scheduled for February 26th from 1-2pm at the Lowell Health Department.

Outreach Health Educator Position:
A new employee is scheduled start on February 24th, 2020.

Lowell Community Opioid Outreach Program (CO-OP)
Maricia Verma, Lowell CO-OP Supervisor

Grant Update

- It was announced by BSAS on March 4th that the MOAPC grant will be extended through September 2020. Additional funds will be provided to cover the three month grant extension.

Partnerships for Success (PFS)
Shannon Gray, Outreach Health Educator

Strategy One (social media and education dissemination to high school-aged youth re: sharing prescription medications):

PFS Social Media Campaign:

Shannon has been working to familiarize herself with the Social Media Campaign ideas. A work plan to create, disseminate, and evaluate the Social Media Campaign will be created within the next month.

Strategy Two (social media and education dissemination to parents/guardians and high school-aged youth re: proper disposal and storage):

"Help Keep Our Kids Safe" Campaign

The two-sided parent flier has been designed and content is being finalized by the Substance Abuse Coordinator and Community Health Coordinator at the Health Department. Our goal is to have the flier finalized, printed, and ready to distribute to the public by the end of March.

Monthly Meeting:

The March 25th Partnerships For Success Coalition meeting has been rescheduled for April 22nd from 1-2pm at the Lowell Health Department.

Outreach Health Educator Position:

Shannon started as the new Outreach Health Educator on February 24th. Shannon has spent her first 3 weeks on the job learning the various aspects of this position and getting to know the Partnerships For Success Coalition members. In addition, Shannon has met with the BSAS Partnerships For Success grant contract manager and technical assistance liaison.

Lowell Community Opioid Outreach Program (CO-OP)
Maricia Verma, Lowell CO-OP Supervisor

Additional

- Joseph (Joe) Aniello started in the position of Clinical Recovery Specialist on March 2nd. In the next Board of Health Report, Joe will provide a report that delves into the clinical work being completed by the Lowell CO-OP.
- The creation of the Youth Outreach Specialist position, via the Lowell Police Department's new Comprehensive Opioid Abuse Program grant, was unanimously approved by the City Council on February 25th. This position will work with youth who have been impacted by the opioid epidemic. The Youth Outreach Specialist will be a Health Department employee and a member of the Lowell CO-OP. The job description was posted on the City website March 4th through March 18th.

**Discarded syringe pick-up request from City Employees (ie. police, fire) and Trinity EMS.*
***Discarded syringe pick-up request from Lowell residents.*

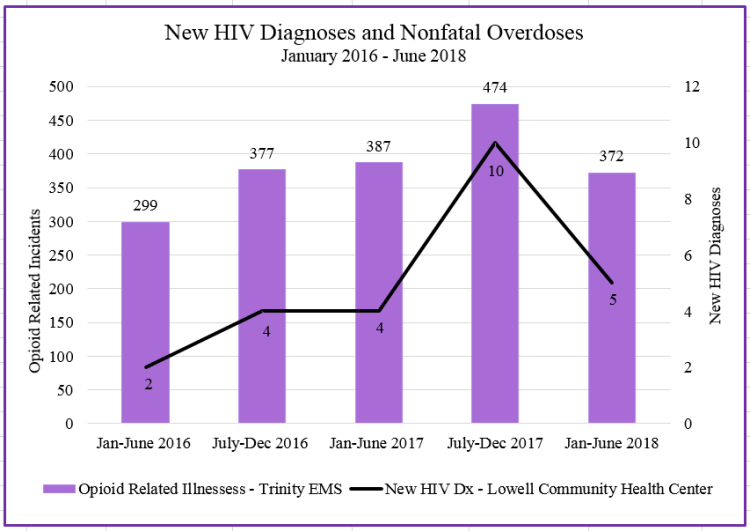
Mayor's Opioid Task Force - Data Subcommittee

Opioid Trends in Lowell, MA

The Mayor's Opioid Task Force Data Subcommittee analyzed various data sets relevant to the opioid epidemic in Lowell. The following observations and recommendations are tailored for community providers to inform their work.

Key Observations

- In 2018, the CDC conducted an investigation in Lowell and Lawrence due to increased rates of new HIV diagnoses.
- Data show that when rates of Opioid Related Incidents (ORI) increase so do new diagnoses of HIV. Please note that the data below reflect only new diagnosed HIV cases reported by Lowell Community Health Center.
- In 2019, two community agencies in Lowell received funding from MDPH to implement Syringe Services Programs.
- In 2019, the City of Lowell created a Syringe Collection Program Coordinator position to respond to discarded syringe pick-up requests.



Recommendations for Community

Providers

- Use a harm reduction approach when talking with clients about ways to reduce risk.
- Ask clients about their risk reduction practices to ensure that they are being practiced correctly (ie. cleaning an injection site with an alcohol pad before injection instead of after).
- Talk with clients about risk reduction for HIV and opioid overdose together instead of two separate topics.
- Educate clients about the risk factors of HIV infection and transmission, which include sharing syringes and engaging in unprotected sex.
- Encourage high risk clients to get tested and inform client of local testing locations. Talk with uninfected high-risk clients about PrEP and other preventative measures to reduce the risk of HIV, HCV, and STIs.
- Talk with clients who use substances intravenously about using bleach kits, clean syringes, and other harm reduction materials. Harm reduction materials can be accessed via Syringe Services Programs.
- Educate clients about proper syringe disposal.

Family and Loved Ones

- Talk with your high-risk loved one about the importance of regular HIV, HCV, and STI screenings.
- Learn more about new HIV and AIDS treatment, and help to reduce the stigma of HIV and AIDS.

Released January 27th, 2020

Mayor's Opioid Task Force - Data Subcommittee

2019: Year in Review

Mayor's Opioid Task Force

The Mayor's Opioid Task Force held 8 meetings, and over 25 partner agencies participated.

Data Subcommittee

Released four "Opioid Trends in Lowell, MA" reports which focused on opioid-related risk and protective factors for the separate topics of Gender, Summer Weather, Narcan, and Winter Weather.

Media Subcommittee

Media Subcommittee was created, and released three social media PSAs, one press release, and one medical provider message on the topics of Narcan and Winter Weather overdose risk factors.

MassHire/Lowell Career Center

MassHire launched the MassHire Career Recovery Project in May, and has served 91 participants who have been effected by the opioid epidemic. MassHire has funded 30 career training programs, 5 HiSet/GED courses, and 29 sessions of CTI's Financial Literacy classes. Additionally, 33 participants have been connected to paid work experience programs within the, and 24 participants who had been unemployed or underemployed due to their relationship with SUD have been connected with permanent, full-time jobs.

Life Connection Center

Life Connection Center implemented funding from the Department of Public Health to support their Syringe Services Program with Lowell Community Health Center as the fiscal agent. Life Connection Center removed over 40,000 syringes from the community as part of their efforts.

Supporting Moms Strengthening Families

Lowell Community Health Center started Supporting Moms Strengthening Families (SMSF), a program similar to Lowell General's Mom's Do Care, which ended in July 2019. SMSF serves pregnant and postpartum women with current or past SUD. Working alongside Lowell General Hospital, SMSF is able to offer Medication Assisted Treatment, Counseling, Prenatal Tours, Support Groups, & more.

Trinity EMS - Opioid Related Illnesses

Trinity EMS reported 582 confirmed opioid related illnesses (ORI) in 2019.

Lowell Police Department - Suspected Fatals

The Lowell Police Department documented 43 suspected fatal opioid-related overdoses for 2019.

Lowell House Addiction Treatment & Recovery

Lowell House moved into their new Center for Integrated Treatment and Recovery (CITAR) in May. Lowell House was awarded two BSAS grants: one to open a Peer Recovery Center, the Recovery Café, and one to fund a 16-bed Co-Occurring Enhanced Recovery Home for me. Lowell House was also awarded a private grant to open a Recovery Coaching Academy, and will be offering their first training in 2020.

Lowell Community Health Center

Lowell Community Health Center OBAT Department served 412 individuals for Substance Use Disorder: 347 clients were treated with Suboxone and 65 clients were treated with Vivitrol.

Lowell Health Department

The Lowell Health Department held four quarterly Unwanted Medication and Sharps, and removed 470 pounds of unwanted medications and 719 pounds of unwanted sharps from the community.

Lowell CO-OP

The Lowell CO-OP engaged in 667 client encounters related to opioid overdose, and over 1,500 additional client encounters related to rapport building and community engagement.

Lowell Police Department

The Lowell Police Department was awarded the 2019 Comprehensive Opioid Abuse Program. Grant funding will go towards supporting the Lowell CO-OP.

Syringe Collection Program

The Syringe Collection Program was created, and began removing syringes from the community in April. The Syringe Collection Program Coordinator removed 9,772 syringes from the community.
