

Nicolás H. Bosonetto, P.E.  
City Engineer

Date: January 18, 2018  
TO: Kevin J. Murphy, City Manager   
VIA: Tom Bellegarde, Assistant City Manager/DPW Commissioner  
FROM: Nicolás H. Bosonetto, P.E., City Engineer

**SUBJECT: 9/26/17 Mayor Kennedy – Request City Manager instruct the proper department to look into pedestrian crossing signal at the intersection of School Street and Branch Street**

The intersection of School Street and Branch Street is fully signalized with an exclusive pedestrian phase. There are pedestrian push buttons and pedestrian signal heads at all four corners.

The signal posts at this intersection are frequently hit and damaged by automobiles, so there may be times between repairs when the pedestrian buttons or heads may be damaged. The City's Electrical Department is vigilant to repair any damage in a timely manner.
