RE: Vote New Ordinance Position

---

I respectfully request a vote of the City Council for the attached new Systems and Project Specialist Ordinance position. Recently, one of our sworn police officers retired whose primary responsibility was implementing various special projects such as but not limited to video surveillance throughout the city and overseeing our public safety radio system. This position is a critical part of the everyday function within the police department. I am requesting to make this position a non-sworn ordinance position, which will allow an additional police officer in the field and provide a trained professional to oversee these critical functions in the police department. I truly believe this position is best suited for a non-sworn employee.

Thank you for your consideration in this matter.
