Petition of:

National Grid
775 Dutton St.
Lowell, Ma. 01854

For the request to relay our gas main in the public right of way on Middlesex Street from ¹⁸⁵²~~1487~~
Middlesex Street to the Lowell - Chelmsford town line.

TO: Lowell City Clerks Office.

Respectfully represents the NATIONAL GRID of 775 Dutton Street, Lowell, Massachusetts, that it desires to relay our existing gas main farther away than the 2' ordinance. This is due to numerous utilities near existing main, which if replacing main on same side would put new main too close to main line sewer. New location request would place the new line three feet off the existing curb line on the opposite side of the public street and across the public way hereinafter named.

Wherefore it prays that after due notice and hearing as provided by law, it be granted permission to excavate the public right of way to run and maintain a gas line, together with such sustaining and protecting fixtures as it may find necessary for the safe running operation of our underground gas structure, said gas main to be located substantially in accordance with the plan filed herewith marked –“National Grid Gas Main on Middlesex Street Lowell, Ma.”

Location approximately as shown on plan attached
