Date: November 2, 2018

Re: Project Fit America Grant

The McAuliffe School was notified that we received a grant valued at \$21,000 from Lowell General Hospital and Project Fit America. The funds are used for the purchase and installation of a new fitness playground, a curriculum for our Physical Education teacher to use with our students on the new equipment, and training in that curriculum from a certified Project Fit instructor. We are very grateful to Lowell General Hospital and Project Fit America for their generosity and support and hope that the Lowell School Committee will vote to accept this donation and send a letter of acknowledgement and thanks to Lowell General Hospital and Project Fit America.
