Re: Council Motion Response

“Req. City Mgr. have LPD and LFD provide a report regarding officer time spent responding to any incidents at existing medical marijuana cultivation or retail facilities.”

A review of records for the past year indicates that the Lowell Police Department responded to the medical marijuana retail facility at 70 Industrial Ave. five times. Four of these calls were for medical events and one for a false alarm. The Lowell Fire Department did not respond to any calls at this location.

A further review of records for the past year for the medical marijuana cultivation facility located at 170 Lincoln St. indicated that the Lowell Police Department responded only one time for a suspicious motor vehicle. The Lowell Fire Department responded on two occasions for an activated carbon monoxide detector which was determined to be a false activation.
