

Good Afternoon Principals,

This is City Councilor Karen Cirillo and I am writing in hopes that your 5th grade students can help the City Council in their upcoming effort of cleaning an area of Lowell.

I put a motion on the April 9th City Council Agenda which read: Councilor Cirillo requests the Mayor establish a City Councilor Annual Lowell Cleanup, #trashtag challenge for the City Council to clean an area of Lowell

We need T-shirts to wear while working hard to keep Lowell clean and beautiful. My want and goal is to have each of your 5th grade classes from each of your schools design a T-shirt for one of the City Councilors, the City Manager and the Assistant City Manager. This works out well as there are eleven of us and there are eleven schools with 5th grade students who can participate.

If it is acceptable, I am happy to come and speak to your students regarding what the goal is. My goal is to have your 5th grade students not only participate in a wonderful art project, but also learn about keeping Lowell clean. The City Council wants to be a positive influence in promoting a clean Lowell.

The City Manager, Assistant City Manager and City Councilors will randomly pick a school and when matched up we will notify your school which one of us will be wearing your design.

I would like to know ASAP if your 5th grade students will be joining in this fun and exciting project, as I would request your school's design by May 31st.

There is only one rule to the design of the t-shirt, and it is to have fun.

All of my very best,

City Councilor Karen Cirillo
