Within any context of specifications wherein the item required is defined by using a particular trade name, or by the designation of a specific manufacturer, or by reference to a Dealer's catalogue, the phrase "or approved equal" is not intended to exclude the consideration of other products. Any consideration of an "approved equal", however, will be predicted on the basis that such an item is of equal value in terms of physical attributes, durability, and functional use. The final decision concerning the acceptability of any equipment item shall rest with the Chief Procurement Officer.
