

GENERAL BID FORM
EMERGENCY REPAIR AND INSTALLATION OF WATER MAINS & SERVICES

Bidder agrees to perform all the work described in the specifications and shown on the plans for the following unit prices. All piping and fittings must meet AWWA drinking water standards:

Note: All prices must be written in ink, in words as well as figures, for the entire proposal. In case of discrepancy, the amount shown in words will govern. The CONTRACTOR agrees that its attention has been called to the provisions of the "Reserve System" Ordinance of the City of Lowell, which is now incorporated in "The Code of the City of Lowell, Massachusetts", passed by the City Council on April 26, 1988 and amendments thereto and that each purchase order, so-called, issued in accordance with Section 7-76 of said Code to cover the services to rendered under this Contract shall be made a part hereof by reference. It is further agreed that no obligations shall be considered to have been incurred under this Contract unless and until a purchase order shall have been issued and approved. And further, that the obligation incurred shall be limited to the amount set forth in each purchase order, or purchase orders, duly issued and approved.

CONSTRUCTION DETAILS

COMMONWEALTH OF MASSACHUSETTS
CITY OF LOWELL
LOWELL REGIONAL WATER UTILITY
EMERGENCY REPAIR
SPECIFICATIONS

For the purpose of governing the work to be done under this Contract, the Owner has adopted as its Standard Specifications format the "Standard Specifications for Highways and Bridges" published by the Commonwealth of Massachusetts, Department of Transportation, dated 1988, including the Supplemental Specifications dated February 25, 2010 and any addenda thereto, also those ordinance that pertain to construction in the City Code.

The Standard Specifications shall apply as if reprinted herein, except as modified by the following supplement to Standards and further by the Special Provisions in Division II and the Provisions in Division III.

In the case of conflict between these two documents, the Supplement to Standards, the Special Provisions of Divisions of II and III shall govern.

STANDARD SUPPLEMENT TO DIVISION I

SECTION 1.00 DEFINITION OF TERMS:

Delete the following: "Commission, Commonwealth, Department, and Party of the First Part".

Insert the following: "Owner.... City of Lowell"

THE FOLLOWING DEFINITIONS ARE REVISED:

1.19 "Engineer" Delete description and insert: "The Engineer" shall mean the engineer engaged by the Owner for the general supervision of the project".

Wherever in the specifications the following words or terms appear, they shall be held to have the following meanings unless the context requires otherwise:

"Commonwealth of Massachusetts", "Commonwealth", "Party of the First Part", and Contracting Agency" shall mean the City of Lowell.

"Department of Highways", "Department of Transportation" and "Department" shall mean "Engineer".

DIVISION II SPECIAL PROVISIONS

For the purpose of governing the work to be done under this this Contract, the Owner has adopted as its Standard Specifications format the "Standard Specifications for Highways and Bridges" published by the Commonwealth of Massachusetts, Department of Transportation, dated 1988, including the Supplemental Specifications dated February 25, 2010.

The Standard Specifications shall apply as if reprinted herein, except as modified by the following Supplement to Standards and further by the Special Provisions in Division II and the Provisions in Division III.

In the case of conflict between these two documents, the Supplement to Standards, the Special Provisions of Divisions II and III shall govern.

1. LOCATION AND DESCRIPTION:

The work under this contract consists of repair of existing pipes at various locations in the City of Lowell, Massachusetts, in accordance with Specifications prepared by the Lowell Regional Water Utility.

Work under this item shall include all necessary labor, equipment, materials, etc., necessary to complete the repair of water mains at various locations in the City of Lowell, in a workmanlike manner.

2. COMMENCEMENT AND COMPLETION:

The contractor shall commence work within 2 hours specified in a written Notice to Proceed. Work shall be done on an as needed basis. Adequate lighting and safety signing shall be maintained throughout the project.

2A. SAFETY PROCEDURES:

Confined space entry, restricted space entry, and all other safety procedures will be required as set forth by OSHA.

3. CONSTRUCTION SCHEDULE:

Before any work is begun, the contractor shall discuss fully with the Distribution Superintendent or designee the order and manner of doing the work, and the operating procedures shall comply with the requirements of the Distribution Superintendent or designee.

Prior to commencing of work, the Contractor shall provide a written work schedule for the work with an estimated time of completion. The work schedule of work must be approved by the Distribution Superintendent or designee.

4. INSURANCE:

Section 7.05 is modified to include the following:

1. Contractor's and Sub-contractor's insurance

The contractor and sub-contractor's shall not commence work on this Contract until they have submitted certificates satisfactory to the owner as evidence of all insurance required under this paragraph. Certificates should indicate at least a 10 day advance written notice to the owner of cancellation or material change in coverage.

- a. Workers' Compensation and Employer's Liability Insurance: In accordance with the laws of the Commonwealth of Massachusetts.
- b. Contractor's and subcontractor's public liability and property damage insurance
- c. Contractor's protective public liability and property damage insurance
- d. Owners protective public liability and property damage insurance
- e. Contractor and subcontractor automobile liability insurance

Minimum limits on all foregoing insurance:

Bodily Injury:	\$500,000.00	per person
	\$1,000,000.00	per occurrence
Property Damage:	\$250,000.00	per person
	\$500,000.00	agg/policy year

NOTE: Property damage insurance must include XCU coverage for explosion collapse or underground damage.

5. DISPOSAL OF MATERIAL

The contractor shall not dispose of any material on the owner's property or on land adjacent to the owner's property unless authorized to do so in writing by the engineer and then only after receipt of the necessary City permits. Attention of the contractor is directed to Section 4.10 of the Standard Specifications for the final clean-up of the work.

6. DISTURBANCES

The committing of nuisances on the premises of the owner and adjacent property shall be rigorously prohibited and adequate steps taken to prevent it.

7. RESTRICTIONS AS TO USE OF SITE

The contractor shall conduct his operations in such a manner as to cause no unnecessary obstruction to the free passage of the vehicular traffic at all times in the vicinity of the construction.

8. ADJACENT AND CONCURRENT CONTRACTS

The contractor's attention is directed to Section 5.06 of the Standard Specifications.

9. NOTICE OF OWNERS OF UTILITIES

Before the contractor begins any work or operations which might damage any subsurface structures, he shall carefully locate all such structures and conduct his operations so as to avoid any damage to them.

If the contractor wishes to have any utilities temporarily relocated for his own convenience, other than contemplated by the City, he shall make the necessary arrangement with the owners and reimburse them at his own expense for the cost of work.

The contractor shall serve written notice to, as listed below, all public service corporations or officials concerned with or having charge of public or privately owned utilities at least one week in advance of the beginning of operation. He shall file at the same time, a copy of such notice with the owner.

Lowell Water Utility	978-674-4240
Lowell Regional Wastewater Utility	978-674-4248
Lowell Engineering Department	978-674-4070
National Grid Gas-David Gendall	978-725-1353
National Grid Electric- David Gendall	978-725-1353
Verizon Telephone	877-686-7007
Comcast	877-633-4266
Lowell Fire Alarm/Electrician	978-674-4114

10. SALES TAX

Materials and equipment purchased for permanent installation in this project will be exempt from the Massachusetts Sales and User Tax. The exemption certificate number will be furnished by the Contractor. Each bidder shall take this exemption into account in calculating the bid for the work.

11. ANTI-DISCRIMINATION CLAUSE

In connection with the performance of work under this contract, the contractor agrees not to discriminate against any employee or applicant for employment because of race, color, religious creed, national origin, age or sex. The aforesaid provisions shall include, but not be limited to the following: Employment upgrading, demotion, or transfer; recruitment advertising; layoff or

termination; rates of pay or other forms of compensation; conditions or privileges of employment; and selection for training, including apprenticeship. The Contractor shall post hereafter in conspicuous places, available for employees and applicants for employment, notices to be provided by the Commonwealth setting forth the provisions of the Fair Employment Practices Law of the Commonwealth (M.G.L. Chapter 151B).

12. RESIDENT CONSTRUCTION PERSONNEL ORDINANCE

The contractor agrees that his/her attention has been called to the provisions of the Resident construction Personnel Ordinance of the City of Lowell, which is now incorporated in the "Code of Ordinance of the City of Lowell, Massachusetts," passed by the City Council on July 24, 1990, and amendments thereto. This ordinance mandates the employment of the City of Lowell residents on projects involving construction of public buildings or public works projects. A copy of the Ordinance is included in the appendix.

DIVISION III CONSTRUCTION DETAILS

The Standard Specifications referred to herein is the book entitled "Standard Specifications for Highways and Bridges" published by the Commonwealth of Massachusetts Department of Transportation, dated 1988, including the "Supplement Specifications".

For the purpose of governing the work to be done under this contract, the owner has adopted as its Standard Specifications format the "Standard Specifications for Highways and Bridges" published by the Commonwealth of Massachusetts, Department of Transportation, dated 1988.

This Standard Specifications shall apply as if reprinted herein, except as modified by the following Technical Specifications.

In case of conflict between these documents, the Technical Specifications shall prevail.

A Trench Detail for this contract has been included in Appendix A. The detail shows the City of Lowell requirements for any trench excavation within City streets.

EXCAVATION

Compensation for all excavation, sewer and water pipes, and structures shall be included in the amount bid for the various pipe and structure items. No additional compensation shall be paid for excavation to the limits shown on the drawings, except that class B rock shall be paid for under Item 140.25. Any excavation required beyond the limits shown on the drawings shall be paid for under Class B Trench Excavation, except that Class B Trench Excavation shall not be governed by the five foot maximum depth specified in Subsection 140.60 and will only be paid when overdepth excavation is ordered by the engineer.

CLASS B ROCK EXCAVATION

CUBIC YARD

Work under this item shall conform to Section 140.25 of the Standard Specifications, excavation of cobble stone and cement base shall be included for payment under this item.

CLASS B TRENCH EXCAVATION

CUBIC YARD

Payment for work under this item shall include only excavation ordered by the engineer beyond the limits shown on the drawings and shall not be governed by the five foot maximum depth specified in Subsection 140.60.

ORDINARY BORROW

CUBIC YARD

Work under this item shall consist of placing and compacting ordinary borrow in place of unsuitable material found in trench excavation. Ordinary borrow shall conform to the requirements of materials section M1.01.0 of the Standard Specifications.

PROCESS GRAVEL FOR BACKFILLING PIPES

CUBIC YARD

Work under this item shall consist of placing and compacting process gravel conforming to materials section M1.03.1 of the Standard Specifications in the roadway or other areas designated by the Owner. All trench compaction must be done to the Engineer's satisfaction and in accordance with City of Lowell requirements.

CRUSHED STONE FOR DRAINAGE

TON

Work under this item shall consist of placing crushed stone as directed by the owner for trench stabilization and drainage. Payment for crushed stone required for pipe bedding shall not be paid for under this item as it is to be included in the various pipe items.

PERMANENT HOT MIX ASPHALT
HOT MIX ASPHALT FOR MISCELLANEOUS WORK

TON
TON

Work under this item shall be done in conformance with the relevant provisions of Section 460 of the Standard Specifications. Temporary hot mix asphalt shall consist of a twelve inch (12") minimum gravel base on thoroughly compacted subgrade, surfaced with a two inch (2") course of hot mix asphalt. A two inch (2") course of an approved cold bituminous mix shall be used when hot mix is not available.

Permanent pavement shall not be placed until a sufficient time interval has elapsed, in the opinion of the Engineer, to allow complete settlement of the fill.

Permanent road pavement shall consist of a twelve inch (12") minimum gravel base on the roughly compacted subgrade, surfaced with two courses of hot mix asphalt (2-1/2" base course, 1-1/2 top course). When paving over cobblestone roads permanent pavement shall consist of three courses of hot mix asphalt (Two 2½" binder courses, 2" top course).

Temporary pavement shall be removed as necessary to provide depth required for permanent pavement. Payment for removal of temporary pavement shall be included in the price bid for Item 472.

Where gravel base has been previously placed for temporary pavement, no additional base is needed for the permanent pavement, except that required to bring uneven areas up to required grade.

Temporary Bituminous Concrete Pavement and Permanent Bituminous Concrete Pavement shall be paid at the unit contract price per ton.

THE CONTRACTOR SHALL BE RESPONSIBLE FOR REPAIRING ANY SETTLEMENTS IN THE PAVEMENT AT HIS OWN EXPENSE.

PAYMENT LIMITS FOR PAVING ARE SHOWN ON THE DRAWINGS. ANY PAVEMENT BEYOND THESE LIMITS DISTURBED BY THE CONTRACTOR SHALL BE REPLACED AT HIS OWN EXPENSE.

CEMENT CONCRETE PAVEMENT
CLASS A CEMENT CONCRETE

CUBIC YARD
CUBIC YARD

Work under this item shall be done in conformance with the relevant provisions of Section 476 of the Standard Specifications. Class A Cement Concrete shall conform to the specified requirements of the materials Section M4.05.5 of the Standard Specifications.

A Cement Concrete shall be used as ordered by the Engineer and shall be paid for at the unit contract price per cubic yard.

CONTROL DENSITY FILL (CDF)

CUBIC YARD

The CDF shall flow under and around the pipe, conduit, facility, or bedding material providing uniform support without leaving voids. CDF shall be discharged from the mixer by a reasonable means into the trench area to be filled. Filling operations shall proceed simultaneously on both sides of the pipe, conduit or facility so that the two fills are kept at approximately the same elevation at all times. An external load shall be applied to the pipe or conduit, sufficient to hold it in place before filling.

The trench in all cases shall be filled to the bottom of the existing pavement to provide space for the pavement restoration. CDF will be used under the City's digression and shall conform to the requirements of materials section M4.08.0 Type 2E of the Standard Specifications.

APPENDIX A

TRENCH DETAIL
