

## New Construction (Meter Installation)

To the Residents, Contractors and Commercial Property Owners of the City of Lowell:

If you are going to request the installation of a meter you must follow the procedure listed below:

1. Obtain a licensed plumber. HE/SHE MUST OBTAIN A PLUMBING PERMIT from the Building Department located at City Hall.
2. Once your plumber has completed the necessary work for the installation (tail pieces must be installed) **PLUMBER** must call the Plumbing Inspector at (978) 674-1457 to make an appointment to have the work inspected. **NO BYPASS (JUMPER ALLOWED).**
3. Get the receipt of the Plumbing Permit from the plumber and pay for the meter.

1" meter	Spacing end to end- 11"	\$355.00
----------	-------------------------	----------

5/8" meter	Spacing end to end- 7 ¾"	\$235.00
------------	--------------------------	----------

Payment for the meter can be made at the Lowell Regional Water Utility located at 815 Pawtucket Blvd.

4. After the work has been inspected and the meter has been paid for, call the Water Utility at 978 674-4242 to make an appointment for us to install the meter. **All meter installations will be within a 72 hour timeframe.**

Residential or Commercial properties requiring meters larger than 1" must purchase and install their own water meter that meets the Lowell Regional Water Utility specifications and follow all the inspection procedures stated above.
