

DATE: December 11, 2020
TO: Board of Health Officials and Public Health Nurses
FROM: WE THE PEOPLE
SUBJECT: Enforcement of Governor Bakers Orders

First, we would like to thank you for all that you do in service to the People. This is a difficult time for everyone as we navigate these uncharted waters and much has fallen on your shoulders as the foot soldiers in the community. For your efforts on our behalf we are extremely grateful.

We are writing to let you know that we will be addressing with Governor Baker the unconstitutionality of his mandates related to business closure, face mask wearing, mandatory vaccination, testing and social distancing. The citizens and businesses of Massachusetts will be educated on their rights to not have to comply with these unconstitutional mandates. They have not proven effective and have seriously harmed and will continue to harm the citizens of Massachusetts of which you are one.

There is a glaring lack of empirical science, evidence-based support and lack of meeting the most fundamental performance standards to initiate a Declaration of a State of Emergency to which Governor Baker used to impose draconian and constitutionally unlawful actions against the People. The overwhelming evidence supports that this pandemic is not a public health concern and that Governor Baker is using meaningless tests to support his lifting and imposing restrictions (Phases of opening) against the People at will.

Governor Baker does not have the authority to lawfully transfer to any Public Servants the authority to enforce his unlawful mandates. In attempting to use his influence over Public Health personnel he is making you **potentially personally liable** for any Civil Rights infractions or rightful litigation that is sure to arise.

All Public Servants are still bound to their Oath of Office and possess no lawful authority nor privilege granted under the guise of a State of Emergency, invoked under Chapter 639, Chapter 17 Section 2A, which does not have a "pandemic" as reason nor Executive Order #55 to enforce his mandates. Therefore, all Public Servants remain strictly bound by the compulsory limits of the US and Massachusetts Constitution and the people they serve and must treat and dismiss any and all infringements with absolute impunity or willfully adopt them at their own individual discretion.

We are counting on you to support the Constitution and to stand with THE PEOPLE and continue to defend our unalienable rights that have been endowed to each and every one of us by the creator and penned in the ink of the Constitution which includes among these being Life, Liberty and the Pursuit of Happiness by NOT enforcing any of Governor Baker's mandates.
