RE: No Parking Sign at 24 Hampshire Street, Lowell MA 01850

Dear City Clerk and Lowell City Council,

I would like to request that a No Parking Sign (within 6 or 10 feet) of the telephone pole at the end of my driveway be reviewed and approved. I have photos (attached). The parking congestion on Hampshire Street is so tight that if cars or trucks park up to and sometimes in front of the telephone pole and my driveway, there is no safe way for me to see any oncoming traffic to the right of my driveway. This has been going on for months, but I can no longer take the chance and it is not safe for me or anyone leaving my home. Some of the neighbors have even had the audacity to park IN my driveway! I have lived here since 1965 and this is just too much traffic, New Hampshire license plates, rentals with 3 or more vehicles, Roofing Vans etc.

I do not feel that a request for a No Parking Sign is too much to ask for my safety and the safety of anyone leaving my property. Take a drive by the area after 5 or 6 pm and you will see the commercial vans, there is a NH trailer that is not always hooked up to a truck.

I would appreciate the consideration. I am not sure what the distance from the pole is per any city rule but a descent distance to safely pull out of the driveway but as far as the city can offer would be greatly appreciated.

Thank you for your time and consideration.

Sincerely

Rita Barry

ROYD LOWELL CITY CLERK

This is just an example. This is not always the vehicle that parks there, there are numerous offenders.

I would like the sign to be placed on this telephone pole
