2022/2023 – 2023/2024 – 2024/2025 Transportation Rates:

Students are placed in routes with surrounding towns/students to maximize sharing the cost of a route. The route cost (as noted above) is divided by the number of students in the route and each town charged appropriately.

Any student who is required or requested to ride alone, will be charged the per route van rate per day.

All vehicles will be no more than eight (8) years old and will include audio/video cameras as well as GPS.

The Contractor shall furnish transportation for students of Lowell Public Schools, which shall include the furnishing of all services necessary and required, consisting of the following in general: transportation equipment, communication and technology systems, maintenance of vehicles and equipment, operations, supervision, inspections, registration, licensing, insurance, safety and training programs, administration and logistical capabilities,

employment of staff, payment of applicable taxes, rents, corporate debt, and other functions as necessary to be ready and available to perform transportation services. Services also includes conformance to all applicable laws, rules, regulations of the Commonwealth of Massachusetts, Registry of Motor Vehicles, and the Lowell Public School
For avoidance of doubt, services are rendered when the contractor maintains the required capabilities identified in the paragraph above, regardless of whether or not students are transported to and from school. However, in this case, when transportation is not provided on a scheduled school day due to a COVID-19 shutdown, then the Lowell Public Schools shall pay the COVID-19 negotiated rate of 44% of the regular daily rate per route. Drivers and Monitors will be furloughed during this time. Availability of Drivers and Monitors is not guaranteed upon return.

Thank you for this opportunity to be of service. If you should have any questions please call.

Sincerely,
