Subject: Statement of Interest – McAvinnue School

As you are aware, the City of Lowell is in the process of preparing applications for the Massachusetts Building Authority's (MSBA) Accelerated Repair Program (ARP), which aims to ease the financial burden of repairing or replacing large building systems which have gone beyond their useful life, including roofs, boilers, windows and doors. Part of the requirement of the application is a vote by the governing body of the municipality to take a vote to support the Superintendent of Schools to submit a Statement of Interest, which serves as the starting point for a possible invitation into the program. As such, I am recommending the following vote take place with regards to the Joseph A. McAvinnue Elementary School, which has a boiler system, roof, and windows that are beyond their useful working life.
