RE: Motion by Councillor Robinson
**“Request the City Manager have the proper department
provide a plan to remove “window makers” dead wood along
First Street”**

The Street Department’s tree crew and the outside tree contractor will begin to remove several “window maker trees” and dead wood along First Street helping to get this area cleaned up. We will begin to do this work in early June.

This tree project work is a big task and it will take some time to clean up the dead wood along the First Street hill area. Some of this work will need to be done on a Saturday to allow us to have staff to properly take care of this tree work project in a timely manner.

We also may need a dumpster on First Street to help us with cleaning this area more efficiently and in a timely manner.

The DPW is always open for neighborhood suggestions on assisting us with our plan on the First Street tree clean-up project.

Please let me know if you have any questions.

Thank you.
