

Terence J. Ryan
Parking Director

MEMORANDUM

TO: Thomas Golden, Jr. City Manager 
FROM: Terry Ryan, Parking Director

DATE: June 14, 2022

SUBJECT: MOTION RESPONSE: Motion 10.10 (5/31/22) – by C. Gitschier – Add a Map and Location of All Electric Vehicle Charging Stations to the Parking Department’s Main Webpage.

The City of Lowell Parking & Garages web site has been updated to better provide access to the City’s EV Charging Network. On the left-hand side of the homepage, the list of options has been updated to list “EV Charging Stations” as the second item after “FAQ’s”. Also, just below the parking video clip is a Chargepoint icon that is linked to the Chargepoint station map. This map provides the locations of chargers within the City as well as the status of a particular charger, its availability and other related information.

If you select the “EV Charging Stations” item from the homepage list, you will be brought to a new page that provides an outline to the City’s charging stations, a link to the Chargepoint map, a link to set up a Chargepoint account and also a pdf version on the city map, provided by Joe Donovan, City GIS Manager.

As the use of EV Charges expands, so will the information provided on this page evolve and define how the stations will be operated.

Sincerely,

Terence Ryan

Parking Director
