

Yovani Baez-Rose
Assistant City Manager/DPD Director

MEMORANDUM

TO: Thomas A. Golden, Jr., City Manager 

FROM: Yovani Baez-Rose, Assistant City Manager/DPD Director

CC: Francesca Cigliano, Interim Director of Development Services
Paul St. Cyr, Public Works Commissioner
April Herz, Recycling Coordinator

SUBJECT: MOTION RESPONSE: 10/11/2022 – Councilor Scott – Req. the City Manager Provide A Report Detailing Enforcement Efforts Happening Around Overflowing Trash, Contaminated Recycling And Barrels Left At Curb After Pick-Up, And How It Will Be Improved Going Forward.

MOTION RESPONSE: 10/25/2022 – Councilor Gitschier – Req. the City Manager Provide City Council With A List Of Written Trash Fines Handed Out By The City Over The Last Two Years And The Location Of The Violation.

Both the City of Lowell's Solid Waste and Recycling (SW&R) Office and Development Services have undertaken steps to improve enforcement of trash and recycling-related issues throughout the city.

Open positions in the Solid Waste & Recycling Division have severely hampered the ability to consistently inspect for contamination, and issue violations. The Recycling Enforcement Coordinator, and Solid Waste and Recycling Technician, positions have been vacant eight (8) months. Recently the city was able to fill one part-time position, but that new hire has not yet started. The full-time position available within the division did not garner any applicants when initially posted, that position will be reposted soon. Filling these key roles will increase the Office's capacity to consistently inspect for contaminated recycling barrels and barrels left at the curb after pick-up.

SW&R has also historically relied upon enforcement assistance from volunteers and are actively seeking volunteers to assist with enforcement. Participation from volunteers is currently limited. SW&R would also benefit from the creation of a part-time inspector position who would be responsible for overseeing enforcement and could schedule uninterrupted inspections. This would allow SW&R to better respond to daily calls concerning contamination or overflow waste in the city. The department will investigate options to fund an additional position.

Development Services staff has increased trash and recycling enforcement throughout the City. Staff conduct inspections on trash pick-up day to detect overflowing barrels, and on the day following trash pick-up in order to catch barrels left at the curb.

Attached please find a list of addresses that were issued warnings or fines for solid waste and recycling violations from October 20, 2020 to present from the Division of Development Services, and Solid Waste and Recycling.
