After meeting with the Masons from the Lands & Buildings Division and the Superintendent of Parks at the School Street Cemetery, we have taken action and determined the following path to repair the collapsed wall along the School Street side of the cemetery.

- *The chain linked fence fastened to the masonry capstones along School and Branch Streets has been removed*
- *Shore and repair the existing collapsed wall with existing materials onsite or stocked by the city.*
- *Set fallen capstones in place, grouting all joints to avoid potential water infiltration.*
- *Point any areas of entire wall as needed*
- *Prepare existing gates for refinishing*
- *Remove concrete barriers once work is completed.*
