RE: Replacement of one-way
street sign on Whidden St.

In City Council

November

November 14, 2017

Read and

We the neighborhood of Whidden St., years ago turned the street, with the help of the Street Dept., into a one way street. Driving up the street, the sign on the telephone pole is very visible. But driving down the street, this is not the case.

We propose a free standing sign on the other side so drivers can see it.

It has been an ongoing problem, especially when there is a Funeral.
