Re: Council Response

---

***9/26/2017 8.12 Councilor Samaras – Request the City Manager have the Lowell Police Department set up speed radar display on Beacon, Mt. Pleasant and Reservoir Street.***

As requested, members from the Lowell Police Departments Traffic Unit mounted a speed sign to a pole at Reservoir Street at the beginning of October. This sign was assigned to this area for approximately a month before needing to move to another part of the city. There have not been any complaints of speeding since assigning the speed sign to Reservoir Street. Sector Officers will continue to monitor.
