

Nicolás H. Bosonetto, P.E.
City Engineer

Date: January 24, 2018 

TO: Kevin J. Murphy, City Manager

VIA: Tom Bellegarde, Assistant City Manager/DPW Commissioner

FROM: Nicolás H. Bosonetto, P.E., City Engineer

SUBJECT: 12/5/17 Councilor Leary – Request City Manager review feasibility of adding Foch Street to the paving list.

Foch Street is a small dead end street which was not accepted by the city and is therefore not eligible for Chapter 90 funds. The street would have to be paved with city capital funds.

The City Engineer will place the street on the pavement list based on a cost/benefit value evaluation which takes into account the condition of the pavement, traffic volume, cost and life of improvements.
