Petition of:

National Grid  
775 Dutton St.  
Lowell, Ma. 01854

For the request to replace our existing gas main in the public right of way on Nesmith St. from Andover St. to Bartlett St.

TO: Lowell City Clerks Office.

Respectfully represents the NATIONAL GRID of 775 Dutton Street, Lowell, Massachusetts, that it desires to replace our existing gas main farther away than the 2' ordinance. This is due to numerous utilities near existing main, which if replacing main on same side would put new main too close to main line sewer and water line. New location request would place the replacement gas line three feet off the existing curb line on the opposite side of the public street and across the public way hereinafter named.

Wherefore it prays that after due notice and hearing as provided by law, it be granted permission to excavate the public right of way to run and maintain a replacement gas line, together with such sustaining and protecting fixtures as it may find necessary for the safe running operation of our underground gas structure, said gas main to be located substantially in accordance with the plan filed herewith marked –“National Grid Gas Main on Nesmith Street Lowell, Ma.”

Location approximately as shown on plan attached
