Michael,

I would like to get on the City council meeting for Tues 10/23. Primarily, it's a thank you! About a year ago, maybe a little longer, the City granted us a licensing agreement to build a small pocket park on Franklin St in the Acre. We had already built 8 homes in the neighborhood and are working on #9 and #10 on Adams St. We decided to add a community component and built this park. It has a play area on synthetic turf, a small 7 box community garden, a pergola with tables and another asphalt play area for the kids. There are benches as well. We wanted to say thank you to the City and especially to the DPW who has been EXTREMELY helpful as well as so many volunteers. I also wanted to invite the councilors to the dedication which will be the next week. Lastly I wanted to ask for permission to name the park Franklin St Green because we know it will ALWAYS be green and green is a symbol of growth and prosperity which we hope for all the residents of the ACRE.

I have a few pictures here and will also bring a few that night. I will speak with you about the need for screens if we go that route. Do you need anything else from us?

Thank you!
Brenda Gould
