RE: Councilors Kennedy and Cirillo – Request City Manager Take the Necessary Steps to Install a Water-Level Gauge at the Pawtucket Falls.

---

This week City Engineer, Christine Clancy and City Solicitor, Christine O’Connor, followed up on an earlier letter sent to Enel regarding the installation of a Water-Level Gauge at the Pawtucket Falls. This past Wednesday they had a phone call with representatives from Enel’s local office, as well as their headquarters in Italy. The matter has been sent for further study, but it is expected that we will hear back with a decision sometime after the holidays.
