RE: C. Mercier – Request City Manager Find Ways and Means to have Spring Street Paved

DPW and Engineering reviewed the condition of Spring Street and patched potholes and roadway depressions with pavement to provide initial improvements. As for a full limit pavement restoration, there is not a current plan to incorporate Spring Street into an upcoming paving list. This request has been noted and Spring Street will be considered in future years of paving lists for when other paving is considered in the vicinity of Spring Street. Since it is an unaccepted public right-of-way, capital funds instead of Ch. 90 funds will have to be utilized to pave the street.

In the meantime, DPW and Engineering can monitor this area and patch potholes or other depressions as necessary.

Thank you

CC: Ralph Snow, DPW Commissioner
